1 375mw energy storage system in Austria

Austria offers EUR17.9 million to fund storage

Austria's Climate and Energy Fund has launched a EUR17.9 million tender program for medium-sized electricity storage systems with net capacities of between 51 kWh and 1 MWh. The ...

Electricity Storage Facilities in Austria

In Austria, only pumped-storage hydro power plants have a long tradition as a means of storing energy. But additional storage capacity using other technologies such as battery storage will be required for ...
