

# 500 kW lithium battery for energy storage

## Overview

---

Built for rapid deployment, our 500 kW capacity batteries are a fast way to increase your efficiency, on or off the grid. Packaged with everything you need - from fire protection to HVAC - they're an effective way to store and reuse energy, increasing your flexibility. A flexible mid-node battery energy storage system (BESS) with rapid deployment and remote monitoring - Our 500 kW/250 kWh battery solutions are backed by engineering expertise to help reduce emissions, fuel consumption, and costs. When paired with Generac's Grid Services Use stored energy to offset facility and/or grid peak. MEGATRON 300 & 500kW Battery Energy Storage Systems are AC Coupled BESS systems offered in both the 10 and 20' containers. Designed with either on-grid (grid following) or hybrid (grid forming) PCS units, each BESS unit is capable of AC coupling to new or existing PV systems making them an ideal. Energy management today increasingly means balancing a combination of carbon reduction, energy savings and energy resilience goals. To discuss pricing and options, please, place an order and we will give you a call or give us/Carl a call. One of the largest energy storage.

## 500 kW lithium battery for energy storage

### 500kW 1MWh Microgrid Industrial Battery Energy Storage System

Easily upgradable from 500kW to 1MW of energy storage, storing up to 3.8MWh of energy, enough to power an average 3,600 homes for one hour.
