

5mw outdoor telecom enclosure product specifications

Overview

This aluminum outdoor enclosure includes HVAC climate control, electrical load panel, side spool cabine and extra battery support for the increasing needs of battery backup, reversable 19" or 23" rack rails, it improved the security and sealing ability of the 3-point locking. This aluminum outdoor enclosure includes HVAC climate control, electrical load panel, side spool cabine and extra battery support for the increasing needs of battery backup, reversable 19" or 23" rack rails, it improved the security and sealing ability of the 3-point locking. The 5G-LTE NEMA outdoor enclosure is designed for outdoor equipment racking applications. Being constructed of premium aluminum material, you'll find it noticeably lighter than steel, yet strong enough to rack even the heaviest equipment. This aluminum outdoor enclosure includes HVAC climate. The 5G-LTE enclosure is engineered for durability, protecting sensitive electronic components in extreme conditions, including intense heat, heavy rain, and freezing temperatures. The Vertiv™ NetSure™ M Series increases cooling capacity for 5G equipment with patent-pending humidity control supported by energy. AZE's field-ready NEMA rated outdoor enclosures or NEMA rated cabinets are designed for harsh environments and extremely weather, from 3R to 4X, various sizes and climate controlled options for thermal management, which can help accelerate your ROI while ensuring performance you can trust. The AZE Telecom offers top-quality weatherproof outdoor electrical enclosures and telecom cabinets. Designed to protect your equipment from rain, dust, and extreme temperatures, our waterproof and customizable solutions ensure reliability in any environment.
