

Accra Civilian Solar Power Generation System Project

Overview

Africa-based Ghana has begun constructing a 200 MW solar park at Dawa Industrial Park in Greater Accra. Developed by Solar for Industries (SFI) with \$150 million investment, the project is one of West Africa's largest solar facilities. The country aims to raise its share of renewable energy from the current 1% to 10% by 2030. The pioneering 5-megawatt floating solar installation is. President John Dramani Mahama (left) at Dawa in the Greater Accra Region during a sod-cutting ceremony for the landmark 200MWp Solar for Industries (SFI) project, a step towards powering Ghana's industrial zones with clean and affordable energy. President John Dramani Mahama has announced a bold. JA Solar, a global leader in photovoltaic (PV) technology, is driving Ghana's renewable energy transformation with the successful installation of a 507 kW rooftop-canopy solar PV power plant at the National Information Technology Agency (NITA) Park in Accra.
