

# Afghanistan solar energy for businesses

## Overview

---

UNDP Afghanistan's ABADEI project, backed by crucial funding from Japan, has ignited a clean energy revolution. Developing a local solar manufacturing industry isn't just an economic game-changer; it's a crucial step towards energy independence and a greener tomorrow. The results speak for themselves: We offer customized solar systems for homes of all sizes, helping households reduce electricity bills. With an estimated potential of nearly 222,000 megawatts of solar energy, Afghanistan is considered among the resource-rich countries in this sector.
