

# Albania energy storage renovation project

## Overview

---

Albania is actively developing several energy storage projects: Pumped Storage Hydropower Project: KESH is discussing a project with the EBRD to add pumps between the Fierza and Koman reservoirs, allowing for energy storage by transporting water uphill during. Albania is actively developing several energy storage projects: Pumped Storage Hydropower Project: KESH is discussing a project with the EBRD to add pumps between the Fierza and Koman reservoirs, allowing for energy storage by transporting water uphill during. Albania will implement its first three projects under the European Union's Western Balkans Growth Plan, with the country receiving 32 million euro in funding. The initiatives are aimed at modernizing the energy system and strengthening its capacity to meet the growing needs of the economy and. Summary: As Albania accelerates its renewable energy transition, the Tirana Energy Storage Planning Project emerges as a critical initiative to stabilize the grid and integrate solar/wind power. This article explores how gravity-based systems could transform energy storage for wind and solar power, backed by technical insights and regional data. With construction crews breaking ground last month, this 300MW/1200MWh facility isn't just another battery project - it's shaping up.
