

# Alofi energy storage for renewable energy

## Overview

---

Alofi's solar energy storage products bridge this gap, turning sunlight into a 24/7 power source. With global electricity prices rising by 18% since 2020 (see Table 1), homeowners are increasingly turning to battery storage solutions to take control. Tata Power Solarroof has achieved a significant milestone, installing 1 GWp of rooftop solar capacity in the first nine months of FY26. This impressive growth, with over 1.7 lakh new customers, marks a 345% year-on-year increase in installations. The company's 'Ghar Ghar Solar' campaign is driving. Batteries (in particular, lithium-ion batteries), supercapacitors, and battery-supercapacitor hybrid devices are promising electrochemical energy storage devices. In this comprehensive guide, we'll break down pricing structures, analyze real-world applications, and reveal how modern. "Alofi's system cut our peak load by 35%—like having an invisible power plant on standby.
