

Apply for a job installing photovoltaic panels

Overview

443 Solar Panel Installer jobs available on Indeed. Apply to Solar Installer, Solar Technician, Installer and more!. This job requires working outside in all types of weather conditions, while standing and walking for extended periods, and bending, kneeling, and lifting heavy. Install solar photovoltaic (PV) panels on rooftops and ground-mounted systems following project specifications and safety protocols. They follow site plans, assemble mounting systems, and make sure the solar array is safe and functional. Some roles also include minor electrical work like connecting panels or checking current. In this post, we'll break down the job description, daily responsibilities, and skills you need to pursue a career in solar installation—and how NCW can help you land your first job in the field. What Do They Do?

Solar installer jobs (also known as solar photovoltaic installers) involve assembling. Solar Installers, sometimes called PV Installers, are responsible for installing and maintaining solar energy systems. Installing solar panels and other modules is not as easy as it may seem, there are a lot of steps to ensuring that.
