

Are solar photovoltaic panels considered illegal construction

**200kWh
Battery Cluster**

Overview

Solar panels can be illegal due to various regulations and legal challenges. Different states have unique laws. Technically, no state outlaws or bans solar panels; quite the opposite. Most states have solar access laws that forbid any agreement, covenant, condition, bylaw, or contract that outlaws or limits solar installations by Homeowners Associations (HOA) or other municipal bodies. However, some states. EL-1) Are solar PV systems, including photovoltaic modules, panels and arrays, and their associated components, considered to be electrical equipment under the State Electrical Code?

Answer: Yes. The State Electrical Code adopts by reference the 2023 edition of the National Electrical Code (NEC). Installing solar panels on your own property is generally permissible for homeowners, offering a path to energy independence. In a landmark 2024 Guangzhou case, courts ordered compensation.
