

Australia energy storage solar power station

Overview

Australia's solar and energy storage sectors delivered strong performance during the third quarter of 2025, with grid-scale solar generation reaching 1,699MW average output while battery storage systems expanded capacity by 2,936MW since Q3 2024. Potentia Energy's 93MW Girgarre solar PV power plant in Victoria. Batteries (both home-scale and grid-scale) are surging, reshaping how electricity is produced, stored and used. Australian renewable energy developer Tonic Group has received federal environmental approval for a 440MWh solar-plus-storage facility in Western. Octopus Australia secures 4.
