

Australian Supplier of Waterproof Photovoltaic Containers

Overview

Our solar containers are built tough to protect solar panels, batteries, and inverters from harsh weather and unauthorised access. We can include insulation, ventilation, cable management, and specialised layouts to suit your specific solar setup requirements. Whether you're powering a remote worksite, an off-grid project, or a backup energy system, our containers are built tough for Australian conditions. The solar array is mounted directly onto the container, and can provide both off-grid and grid-tied functionality, with all necessary equipment to ensure safe and. AVID GROUP provide a whole range of SPS and Containerised Solar Energy Solutions. AVID's experience, versatility, scope of services and collaborative. The Hybrid-Ready Container Solution is a modular product in a series of products enabling full distributed energy plant deployments anywhere with enough open space to support solar energy.
