

Bamako Super Aluminum Electrolytic Capacitor

Bamako Super Aluminum Electrolytic Capacitor

Aluminum Electrolytic Capacitors

These capacitors come in a wide range of capacitance values (0.1uF to 82,000uF) and voltage ratings (2VDC to 550VDC), offering different performance levels of ripple current, operating temperature ...

Aluminum Electrolytic Capacitors

Our range of aluminum electrolytic capacitors offers superior durability, long service life, and high capacitance-to-volume ratios, making them ideal for applications where space is limited but ...

Aluminum Electrolytic Capacitors

The electrical characteristics of aluminum electrolytic capacitors with plain (not etched) foils are, in part, better, but these capacitors are considerably larger and are only used for

special applications ...

Aluminum electrolytic capacitor

Aluminium electrolytic capacitors are (usually) polarized electrolytic capacitors whose anode electrode (+) is made of a pure aluminium foil with an etched surface. The aluminum forms a very thin ...

[Get Price](#)

Aluminum Electrolytic Capacitors

The thin insulating layer of aluminum oxide formed on the anode between the foil plates acts as the dielectric, creating a high-capacitance device in a compact

package.
