

Barbados Energy Storage Lithium Iron Phosphate Battery Manufacturer

Overview

The Barbados National Energy Company Ltd. (BNECL), in partnership with the Inter-American Development Bank (IDB), is leading the installation of 10 MW of Battery Energy Storage Systems (BESS) across the island. These will support the national grid for additional renewable energy. The Government of Barbados has officially launched a major procurement process for the country's first large-scale Battery Energy Storage Systems (BESS), aimed at transforming the national electricity grid and unlocking delayed renewable energy investments. The Ministry of Energy and Business is currently hosting a three-day Procurement Design Workshop with key stakeholders to discuss and. With 48% of Barbados' electricity currently generated from renewable sources (Caribbean Renewable Energy Alliance 2023 data), battery storage plays three vital roles: "Battery storage capacity in Barbados grew 210% between 2020-2023, mirroring the island's solar panel installation boom.
