

Base Station Communication Emergency Plan

Overview

This document provides considerations and recommended actions through easy-to-use checklists for each phase of the system lifecycle planning model. OEC supports and promotes communications used by emergency responders and government officials to keep America safe, secure, and. The Department of Homeland Security (DHS) Office of Emergency Communications (OEC), in coordination with SAFECOM and the National Council of Statewide Interoperability Coordinators (NCSWIC), is pleased to present a compendium to the 2011 Emergency Communications System Lifecycle Planning Guide. Product Director Base Emergency Communications System (BECS) supports installation force protection, public safety, installation management, and homeland security. BECS manages, engineers, acquires, delivers, and supports CONUS non-tactical Land Mobile Radio (LMR), Computer-Aided Dispatch (CAD). (1) This section describes the DAEC emergency communications systems and communications links between the Asset Owner, the Nuclear Management Company (NMC) and other response organizations. The total communications system is discussed in detail and procedures for its use are outlined. Developing a Communications Annex PurposeA communications annex provides information on. The Air Force Installation and Mission Support Center sustains the base communications infrastructure that supports Department of the Air Force mission requirements. But for modern organizations, a base.
