

# Battery safety thailand

## Overview

---

Jointly authored by six ASEAN organisations and two contributing partners, the study provides an in-depth analysis of the region's evolving battery, electric vehicle, and energy storage markets, including policy developments, recycling practices, and technological innovation. The 3rd ASEAN Battery Technology Conference (ABTC) recently wrapped up at the SAii Laguna Phuket in Thailand, marking a significant step toward a unified regional battery ecosystem and accelerating collaboration in clean energy. It was held in Phuket, Thailand, from August 27-29, 2025. In total, the event brought together over 340 participants from more than 20 countries. Their primary aim was to build a strong ASEAN Battery Ecosystem.
