

# Bloemfontein public welfare solar container energy storage system

## Overview

---

Scheduled for completion in Q3 2025, this 800MWh lithium-ion facility will store enough energy to power 350,000 homes during evening peaks. What makes it special?

It's paired with existing solar farms through an AI-driven energy management platform that predicts consumption patterns. [pdf]. The Ashgabat-Bloemfontein energy storage project aims to make this vision reality. The solar park uses 277,632 conventional, PV and went fully on line in May 2014. This project seeks to increase thermal storage den well as CSP (Concentrated Solar Power).
