

CEC 270 photovoltaic panel size

Overview

These panels typically measure around 65" x 39" and weigh approximately 40-42 pounds, making them manageable for DIY installations while providing sufficient power for many applications. The CEC6-4-60-270PD solar panels are compatible with various solar energy systems, including grid-tied and off-grid setups. Niche Application Value: Despite lower efficiency compared to modern panels, 270W panels excel in specific applications including RV installations, marine systems, and off-grid cabins where manageable size (65" x 39") and weight (40-45 lbs) provide significant advantages over larger alternatives. Product is no longer manufactured. CECEP Solar Technology (Zhenjiang) Co. Solar Panel Series CEC6-60P 270-290. Detailed profile including pictures, certification details and manufacturer PDF . Leading Solar PV Panel Manufacture now in India. Mono Solar 210mm PV Cells: The Largest and Most Powerful Solar Cells Available Model: SS260M10, SS270M10 It uses mono-crystalline cells and PERC technology to deliver more power and durability than other panels. Choose from 260w or 270w options. STC: Irradiance1000W/m², Cell Temperature 25°C, AM1.

CECEP CEC6-4-60-270PD Solar Panel Specifications

The CEC6-4-60-270PD solar panels have a rated output of 270 Wp and an impressive efficiency of 16.6 %, making them an excellent choice for homeowners looking to harness the power of the sun and ...
