### What Temperature Should You Leave Power Tool Batteries in the ...

Store power tool batteries in the garage at 20°C to 25°C (68°F to 77°F) for optimal performance and longevity. This range keeps them efficient and prevents chemical breakdown. In ...

### Types of High-Temperature Batteries and Their

High-temperature polymer lithium-ion batteries can withstand temperatures up to 800°C in certain tests. However, in daily life, such extreme temperatures are rarely encountered.

### Temperature Fluctuations Affect Power Tool Battery Storage

Temperature fluctuations can significantly impact power tool battery storage. Batteries should be stored in a stable environment, ideally between 32°F and 77°F (0°C to 25°C). Extreme ...
