

Canadian solar energy storage inverter

Overview

Our Canadian Solar inverters deliver high efficiency and reliable operational stability, ideally matched to Canadian Solar modules and common battery systems. They ensure low-loss energy conversion, intelligent monitoring and simple system integration for private and commercial. EP Cube Wins Japan's Prestigious Good Design Award, Leading the Future of Home Energy Storage with Exceptional Design Today, Canadian Solar's residential energy storage system EP Cube stood out from numerous global entries to win the 2025 Good Design Award in Japan. The prestigious G-mark symbol. Canadian Solar EP Cube is a lightweight all-in-one residential energy storage solution. • Flexible: Expandable storage • Safer: Lithium Iron Phosphate batteries • Versatile: Hybrid Inverter with AC and DC input EP Cube Technical Information [Click Here](#) Sales Information [Click Here](#) Integrated hybrid. Company e-STORAGE Read more e-STORAGE, a subsidiary of Canadian Solar, is a world-class energy storage solution provider, specializing in storage system design, manufacturing, and integration of battery energy storage systems for utility-scale applications. 9kW to meet Canadian energy needs. Built around proven LiFePO₄ battery technology and modular design, it delivers whole-home backup, seamless scalability, and smart energy management—all.

Canadian solar energy storage inverter

EP CUBE - CSI Solar - North America

All of our energy storage solutions are flexible and customizable to meet your exact project specifications. Let's start the conversation about your energy storage needs.

Utility-Scale ESS solutions

Canadian Solar EP Cube , 9.9 kWh Lithium Battery + Solar Backup

Designed for effortless installation and transport, EP Cube's modular battery system lets you scale your storage to

match your exact power demands.
Simply add or remove battery modules
for capacities ...
