

# Charger on photovoltaic panel

## Overview

---

Solar chargers work by taking energy absorbed through solar panels and using it to charge solar batteries. We're also a team of solar experts with decades of experience who want to educate people about all the ways that solar power can improve their lives. Guy Gabay is a Solar Energy Contractor and the CEO of AmeriGreen Builders, a full-service solar energy, roofing, HVAC and window installation company based in the greater Los Angeles, California region. Solar energy can charge your phone while you're out camping, power a car, RV, or electric scooter, or even become your home's primary everyday power source.
