

China on grid hybrid inverter in Myanmar

Overview

China's Solis, a PV inverter manufacturer, completed a 50 kW solar-plus-storage system at a commercial facility in Myanmar's Yangon Region. 8 kW solar array, a 50 kWh Longlast lithium battery bank, and the Solis S6-EH3P50K-H hybrid inverter. The Solis S6-EH3P50K-H system has delivered <10 ms grid shift, diesel integration, and dynamic energy cost management in Myanmar. This milestone project reinforces Solis' commitment to sustainable energy solutions and reducing dependence on traditional power sources. output up to 50% rated powerDC couple and AC couple to retrofit existing solar systemMax. 10pcs parallel for on-grid and off-grid operation; Support multiple batteries parallel48V low voltage battery, transformer isolation design6 time periods for battery. As a source manufacturer of solar inverters and energy storage systems from China, Xindun brought advanced solar power products: on&off-grid hybrid inverters : HFP, HFP-C, HP PLUS+, low-frequency inverters: HDSX, LF and high-efficiency MPPT solar controllers: Wonder 1, Wonder 2.
