

China's solar container communication station energy management system adopts chips

◆ **PRODUCT INFORMATION** ◆

The image shows a tall, grey metal cabinet for an Energy Storage System. The front door is white and features a small digital display and control panel. The text 'Energy Storage System' is printed above the panel. At the bottom of the cabinet, the model number 'DW-ESS-100P-200' is visible. The left side of the cabinet has a perforated metal section for ventilation.

-  **BATTERY CAPACITY**
50kWh~500kWh
-  **DC VOLTAGE RANGE**
400V~1000V
-  **DEGREE OF PROTECTION**
IP54
-  **OPERATING TEMPERATURE RANGE**
-10~50°C

Overview

Undocumented communication devices have been discovered inside solar inverters and batteries manufactured in China, according to two sources familiar with the matter. This has prompted US energy officials to re-assess the risks of emerging technologies produced in China. Power inverters are. U. A Reuters investigation, citing two individuals familiar with the matter, revealed. Officials are reportedly reassessing the risk posed by Chinese-made devices found in solar panels that are capable of damaging the energy infrastructure, destabilizing the power grid and triggering widespread blackouts.
