

# Community energy storage cabinet single-phase discount

## Overview

---

Yes, there are home energy storage incentives for those who do not live in eligible communities and high fire-risk areas. In addition, if you do not meet. The California Public Utilities Commission's (CPUC) Self-Generation Incentive Program (SGIP) offers incentives for installing energy storage and paired solar technology at low-income households. The program helps residential and non-residential customers have power during planned and unplanned power outages. Here are some of the types of incentives and how they work:

Investment Tax Credit (ITC): The Inflation Reduction Act offers a 30% tax credit for residential.
