

Constant Temperature and Humidity Type Battery Cabinet for Photovoltaic Energy Storage

Overview

This cabinet-style energy storage battery is tailored for overseas commercial and industrial scenarios, from small workshops to data centers, combining robust safety, ultra-long durability, and all-environment adaptability. They can be widely used in farms, animal husbandry, hotels, schools. AZE's all-in-one IP55 outdoor battery cabinet system with DC48V/1500W air conditioner is a compact and flexible ESS based on the characteristics of small C&I loads. The commercial and industrial (C & I) system integrates core parts such as the battery units, PCS, fire extinguishing system. Battery Swapping Station (BSS) proposes an alternative way of refueling Electric Vehicles (EVs) that can lead towards a sustainable transportation ecosystem. BSS has significant potential to function as a grid. Dual fire suppression, ATS/STS ensure seamless power switching. Integrated BMS/PCS/EMS supports diverse applications. Equipped with a robust 15kW hybrid inverter and 35kWh rack-mounted lithium-ion batteries, the system is seamlessly housed in an IP55-rated cabinet for enhanced protection.

Constant Temperature and Humidity Type Battery Cabinet for Photo

Indoor Photovoltaic Energy Cabinet

The Huijue Indoor Photovoltaic Energy Cabinet is a complete high-performance indoor energy storage solution for telecommunication, business, and industry.
