

Corrosion-resistant outdoor telecom cabinets for construction sites

Overview

Look for cabinets made from corrosion-resistant materials like stainless steel or aluminum to enhance durability and reduce maintenance needs. Choose cabinets with high IP ratings (54 or higher) for effective protection against dust and water, ensuring your equipment remains. When your network infrastructure demands reliable outdoor protection, American Products delivers weatherproof telecom enclosures engineered for performance and built to last. Since 1989, we've manufactured outdoor telecom cabinets in America's Heartland, providing telecommunications companies. Vikinor outdoor enclosures, including our industry-leading multitenant cabinets, safeguard critical telecom, energy, and industrial equipment from weather, dust, and vandalism. Designed to meet high protection standards and environmental demands, they ensure reliable performance for equipment. Featuring corrosion-resistant materials, advanced thermal management, and customizable designs, these NEMA-rated enclosures are perfect for energy storage, telecommunications, and industrial applications. We also offer customizable options to meet your unique needs. With proven expertise in system integration, Westell also manages the details for design assistance, planning, thermal management.
