

Cylindrical solar container lithium battery groove processing equipment

Overview

The Automatic Cylindrical Cell Can Grooving Machine is a specialized manufacturing equipment used to create precise grooves, crimps, or beads on the metal casing (can) of cylindrical lithium-ion battery cells (e., 18650, 21700, 26650). It could arrange the cylindrical steel shell (with the rolled. Lithium Ion Cells are manufactured on a pilot/large-scale production line consisting of electrode manufacturing, cell fabrication, formation and integration. Ideal electrolyte filling machine to fill electrolyte into Lithium ion cell under vacuum. Please make an inquiry. This equipment is a CE Certified semi-auto grooving machine. It is used for grooving various cylindrical cases including CR123/A,18650, 21700, 26650, 32650 and AA. *The width of the grooving is adjustable.

Cylindrical solar container lithium battery groove processing equipment

Cylindrical Cell Battery Lab Research Equipment

XIAOWEI provides cylindrical cell battery lab research equipment, including winding, ultrasonic welding, grooving machine, electrolyte filling, sealing and forming process

Cylindrical Cell Manufacturing Equipment Solutions , Tesscorn

Our advanced cylindrical cell manufacturing line designed to optimize production and ensure superior quality. Streamline your battery manufacturing process and increase efficiency.

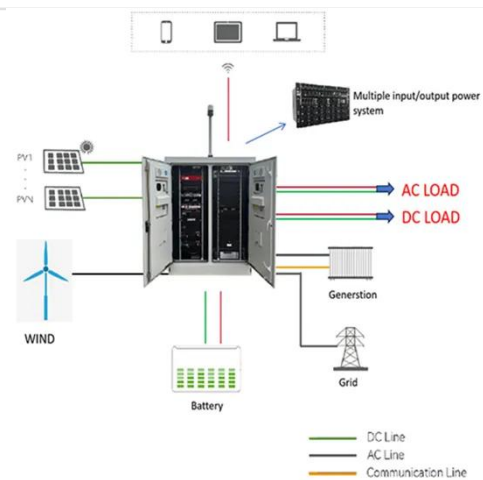

[Get Price](#)

Complete Cylindrical Battery

Production Line Solutions , Turnkey

Our comprehensive equipment portfolio covers every critical stage of cylindrical cell production, engineered for precision, speed, and reliability across all major cell formats.

[Get Price](#)

Cylindrical Cell Manufacturing Equipment Solutions , Targray

Cylindrical Cell Manufacturing can be broken down into 4 stages: Electrode preparation, Cell assembly, Case formation & sealing, and battery testing.

Buy Semi-automatic Grooving Machine for cylindrical battery laboratory

The semi-automatic cylindrical battery grooving machine is suitable for uniformly and automatically grooving cylindrical steel shells (or capacitor aluminum shells) with cells installed.

[Get Price](#)

Lab Cylinder Cell Grooving Machine for Lithium Ion Battery Production

Based on the factory, we can offer all services (Raw Materials, Equipments, Technology, etc.) for full set of lithium

battery producing line to help clients to establish a factory of lithium battery.

Cylindrical Cell / 18650 « Equipment for Battery : Hohsen Corp.

Grooving Machine Compact grooving machine for Lithium ion battery R& D, to groove 18650 can. Applicable: 18650 Grooving Machine

[Get Price](#)

Semi-automatic Cylindrical Battery Grooving Machine

This equipment is suitable for uniform automatic rolling of cylindrical steel shell (or capacitive aluminum shell) equipped with cells.

[Get Price](#)

Lab 18650 Cylindrical Battery Automatic Roll Grooving Machine For

This Equipment Can Be Used In The Rolling Groove Process Of Rechargeable NiMH, NiCd And Cylindrical Lithium

Battery.
