

# Cyprus imports energy storage batteries

## Overview

---

The energy regulator has approved a significant battery storage system totalling 120MW across three locations to enhance grid stability and security, marking a crucial step for the island's electricity infrastructure. The Apollon PV Park has commissioned a 3. From ESS News Cyprus has taken a step toward modernizing its energy infrastructure with the commissioning of a 3. Cyprus Energy Regulatory Authority (CERA) announced the approval earlier this week (18 June) of three projects which will be owned and operated. In an ambitious move towards a sustainable energy future, Cyprus is set to operationalize its first large-scale electricity storage system within the next 16 months. That will ease the strain on the European Union's.

## Cyprus imports energy storage batteries

### Cyprus Approves Big Battery Energy Storage System Project

Soon after state-owned Electricity Authority of Cyprus (EAC) launched a tender for a contractor for two BESS facilities, a private firm received the approval from the Department of ...
