## Overview

---

A new report released today by RMI and Abuja Electricity Distribution Company (AEDC) identifies a collaborative business model which enables distribution companies (DisCos) and distributed energy resource (DER) developers to provide clean energy to large commercial and. A new report released today by RMI and Abuja Electricity Distribution Company (AEDC) identifies a collaborative business model which enables distribution companies (DisCos) and distributed energy resource (DER) developers to provide clean energy to large commercial and. ture and secure a clean, prosperous, zero-carbon future for all. We work in the world's most critical geographies and engage businesses, policymakers, communities, and NGOs to identify and scale energy system interventions that will cut climate pollution at least 50 percent by 2030. RMI has offices. There are no upfront costs, but regulatory approval. Interested parties should complete the form below and a representative will contact you with further details. Nigeria's first-ever feasibility study into a pilot project on developing custom hybrid distributed energy systems that. Nigeria's ambitious Distributed Access through Renewable Energy Scale-up (DARES) programme, is set to launch later this month, March 2025. The \$750Million initiative, backed by the World Bank, aims to transform Nigeria's energy landscape by expanding electrification through decentralized renewable. Funded by the United States Trade and Development Agency (USTDA), Daybreak Power Solutions Limited (Daystar) and Rocky Mountain Institute (RMI) conducted a feasibility study to optimize energy supply to 20 commercial and industrial (C&I) entities in Nigeria using utility-enabled distributed energy.
