

Energy storage system bpu

Overview

OVERVIEW The New Jersey Board of Public Utilities (“the BPU”) in an order dated Jhas taken the first step to implement the New Jersey Clean Energy Act of 2018 by unveiling a multiphase program incentivizing public and private developers to install 2,000 megawatts (“MW”). OVERVIEW The New Jersey Board of Public Utilities (“the BPU”) in an order dated Jhas taken the first step to implement the New Jersey Clean Energy Act of 2018 by unveiling a multiphase program incentivizing public and private developers to install 2,000 megawatts (“MW”). EO No. 2 directed the New Jersey Board of Public Utilities (BPU) to accelerate the development of transmission-scale battery storage through the BPU's Garden State Energy Storage Program (the Program). But less than three days later, her EO No. ACP is committed to meeting Ameri g stakeholder feedback on the 2024 updated straw proposal for the New Jersey Storage Incentive Program (SIP).
