

Energy storage system factory in Switzerland

215kWh

8,000+ Cycles Lifetime

IP54 Protection Degree

Overview

In Kappel, in the canton of Solothurn, one of the largest battery storage systems in Switzerland is currently under construction, with a total capacity of 65 megawatt-hours. The successful delivery of all system components marks a key milestone on the path to commissioning. Energy Vault is the creator of sustainable energy storage solutions designed to accelerate the transition to a carbon free, resilient power grid and transform the world's approach to utility-scale energy storage. Their expertise in developing customized battery systems enhances grid stability and increases the integration of renewable energy sources, making them a key player in the long-duration energy storage. Switzerland is home to a number of energy storage companies that are developing innovative solutions to store energy from renewable sources. Designwerk stands for electromobility from a.
