

Explosion-proof lithium battery energy storage cabinet for battery swapping stations

Overview

Designed to exceed IFC24 fire-containment standards, it enables secure storage of bulk, damaged, or prototype batteries without the need for a separate fire-rated room. Lightweight, mobile, and field-repairable, the cabinet combines long-term durability with sustainable. These meticulously designed lithium-ion battery storage containers provide Lithium-ion Battery Safety, including 90-minute fire resistance against external sources. Made with a proprietary 9-layer ChargeGuard™ system that helps minimize potential losses from fire, smoke, and explosions caused by Lithium batteries. Our practical, durable cabinets are manufactured from aluminum, and lined with CellBlock's Fire Containment Panels. CellBlockEX provides both insulation and. Asecos is the world's leading manufacturing for safety storage cabinets for the storage of flammable liquids and compressed gas cylinders. Asecos cabinets are first class quality made in Germany.
