

First solar sukhummi

Overview

The facility, which has an annual nameplate capacity of 3.3 gigawatts (GW) and directly employs approximately 1,000 people, produces First Solar's Series 7 photovoltaic (PV) solar modules, which were developed at the company's research and development centers in the US and. First Solar proudly established the guiding principles of Responsible Solar – how it treats its employees, manages its environmental impact, and operates its business. Together, these pillars produce a responsible solar technology that reduces risk and maximizes returns with respect for people and. Despite a 3 GW+ annual capacity of First Solar in India, actual 2024 sales were modest. 6 GW went to Indian customers in the full year. The firm specializes in thin-film solar panels, setting it apart from numerous competitors that concentrate on crystalline technology. First Solar has launched its latest facility in Tamil Nadu, India, representing the nation's first fully vertically integrated solar manufacturing plant. The distinguished Chief Guest for the ceremony was T R B Rajaa, the Minister for Industries, Promotions, and Commerce in the Government of Tamil.
