

# First solar sweden

## Overview

---

solar cell maker will use Swedish technology to create innovative tandem solar cells using thin perovskite films. First Solar said in a statement on Friday that the acquisition will accelerate the development of next generation. US thin-film photovoltaics (PV) maker First Solar Inc (NASDAQ:FSLR) today announced the acquisition of perovskite technology specialist Evolar AB to accelerate its efforts to develop next-generation tandem PV technology. Thin film. Acquisition of thin film perovskite specialist to accelerate next-generation PV technology US-based First Solar has acquired Evolar AB, a Swedish developer of perovskite technology.
