MONITORING OF SYSTEM STATUS**

Overview

Greek renewable energy company Principia has completed the construction of its first battery energy storage system (BESS), known as Themelio. Located in the Vouno area of Chalkidiki, near Polygyros, the 49 MW / 98 MWh project has one or two quirks. Greece's grid-scale battery rollout accelerates with new 49 MW / 98 MWh unit in Chalkidiki. In total, Balkan. The Group has Production Licenses for equal number of Central Storage Stations, with a capacity of 225 MW and 150 MW each, in suitable areas within the Industrial Area of Alexandroupolis and Patras. On a daily basis, the Regulatory Authority for Energy (RAE) receives applications for permits concerning battery storage plants, which range from a few megawatts. Greece's strategic location and renewable energy ambitions have positioned it as a hub for innovative container energy storage systems. These modular units are reshaping how industries store and deploy electricity—especially for solar and wind farms struggling with intermittency.

Greek battery energy storage container factory

Battery fever grips Greece with firms launching hundreds of projects

A large number of domestic and foreign companies are interested in building energy storage plants in Greece using battery technology.

ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

Greece battery storage: Essential solar aid arrives 2026

Greece's Battery Storage to Aid Solar Integration by Mid-2026 Greece is harnessing its abundant sunshine to power a green energy transition, but the full potential of its solar capacity can ...
