

# Guatemala civilian solar system

## Overview

---

The project includes over 168,000 solar panels and 240 inverters, and will connect to the national grid via the Jaguar Energy Substation. Solarpack, a Spanish renewable energy company, has secured authorization from Guatemala's Ministry of Energy and Mines to install and operate the 75 MW Tierra del Sol Solar Park in the Chiquimula department. This approval is a major step toward bolstering Guatemala's renewable energy capacity. The Don Jorge photovoltaic power plant, located in Asunción Mita in the department of Jutiapa, has an installed. Guatemala's photovoltaic market has experienced rapid growth over the past 5-10 years, evolving from virtually nothing to become the most mature and largest market in Central America in terms of installed capacity. Guatemala's commercial and industrial electricity prices are among the highest in.
