

# Guyana Telecommunication Tower Base Station Construction

智慧能源储能系统  
Intelligent energy storage system

## Overview

---

Through a collaborative effort from Guyana Telephone and Telegraph Co Ltd (GTT) and the WANSAT a backhaul of cellular traffic was successfully placed from the Hinterland to Georgetown via an international satellite and fiber connection. Telecommunications Systems Development (TSD) is your one-stop shop for all your telecommunications infrastructure needs. From planning and design to installation and integration, our engineers ensure your broadcast systems operate at peak performance. Phenom Tech is a solutions provider founded in 2012. A release from GTT yesterday said that the project is being managed entirely from WANSAT's Network Operations Centre (NOC). As Guyana's telecom and broadcasting sectors continue to grow, so too does the demand for responsive, specialized, and regionally aware engineering support.
