

Hanergy Solar Power Generation Technology

Overview

Hanergy, a multinational clean energy generation company began almost 25 years ago and grew to be the World's largest thin film solar (CIGS) technology company with installed capacity over 6GW throughout the World. Hanergy Thin Film Power America was established as a Hanergy subsidiary in 2010 based in the San Francisco Bay Area. Hanergy America provides turn-key development of solar projects and sells solar products manufactured by other Hanergy subsidiaries for: Hanergy America works closely with clients. Based on Hanergy's MiaSolé high efficiency Thin Film cells, the Hantile solar roof tiles are the ultimate roof application of thin film. Finally all visible surface of a curved solar roof tile can be efficiently used, making it possible to get maximum yield of a tile roof. Through global technical integration and independent innovation, Hanergy has become a world leader in. Let's start with a solar-powered brain teaser: What do Hanergy solar panels, potato chips, and modern art have in common?

They're all getting thinner while packing more punch. Established in 1994, the company is headquartered in Beijing.
