

Has the photovoltaic panel scam been exposed

Overview

Dozens of customers "filed complaints against a company called Pink Energy, which abruptly went out of business in September 2022 and filed for bankruptcy after allegedly selling defunct solar panels and misleading customers about their benefits," said Time. Solar panel fraud has become a growing concern in the United States, leaving many homeowners stuck with hidden fees, inflated energy bills, and contracts they never fully understood. As more families consider solar energy improvements, dishonest companies exploit the fine print in solar panel. While rooftop solar panels are becoming increasingly ubiquitous in homes throughout the United States, the industry also has a more sinister side: a seemingly widespread problem of fraudulent business practices that has cast a shadow over many solar panel companies. Dissatisfaction with the solar. In a recent discussion on the solar panel industry, critical insights have emerged that challenge the common perception of this renewable energy sector. If you've received an offer for "free solar panels," it could be a scam. Always look for businesses you can trust - like Accredited Businesses using the BBB Seal. While there are some government-funded solar. Scammers across the U.
