

Havana New Energy solar Panels

Overview

Cuba on Friday unveiled a new solar energy park in the capital Havana, part of an ambitious project to alleviate the communist island's increasingly desperate struggle with power blackouts. HAVANA TIMES - On Febru, the first solar photovoltaic park was inaugurated, with a capacity of 21. The project, located in Cotorro—on the outskirts of Havana—is part of the island's government's bet on solar energy to address the country's dire electricity situation. 87 MW, located in the central province of Sancti Spíritus, began operations after just over two months of installation.
