

Hidden costs of solar inverters

Overview

That'll be \$3,000 to \$10,000 just to move your panels and put them back. If something breaks and your installer is gone, you have to find and pay someone else to fix it. While solar is still a fantastic investment for most, ignoring these "Hidden Costs" can turn a 7-year payback period into a 10-year one. While solar panels have a 25-30 year warranty. Solar panel maintenance costs \$300 to \$850 per year on average, depending on the system size, type, & location. Before you invest in a solar system, it's crucial to be aware of these lesser-known expenses. If either one is cheap or poorly made, you'll pay for it, in wasted energy, higher bills, and shorter lifespan. Energy Efficiency Drops Every Single Day.
