

High temperature resistant type of smart pv-ess integrated cabinet in vietnam

Overview

All-in-one design, integrated with PV. Suitable for industrial and commercial scenarios, which supports functions like timed scheduling, peak-shaving, PV self-generation. All-in-one design, integrated with PV., smart air-cooled heat dissipation, single cabinet capacity of 215kWh. Maximum support for. Standardized Structure Design: Includes energy storage batteries, power conversion systems (PCS), photovoltaic modules, and charging modules in a compact and highly efficient cabinet. The monitored battery characteristics include the detection of battery type, voltage, temperature, capacity, state of charge, power consumption, remaining operating time, charge cycles, and more.

High temperature resistant type of smart pv-ess integrated cabinet

GRADE A BATTERY

LiFePO4 battery will not burn when overcharged or over discharged, overcurrent or short circuit and can withstand high temperatures without decomposition.

All-in-one Cabinet consists of power battery cluster

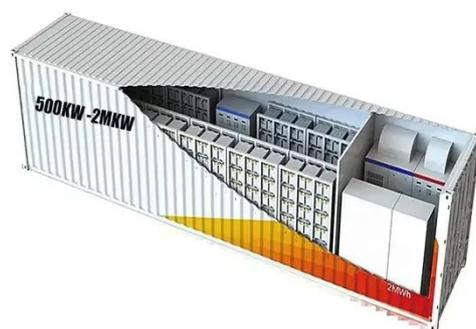

CB Smart100 PV ESS All-in-one Cabinet consists of power battery cluster, hybrid inverter, variable frequency temperature control system, BMS, EMS, combined precision suppression and burst ...
