

Highest price for solar panels

Overview

Most homeowners spend between \$12,600 and \$33,376 to install a complete residential solar system in 2026, with the national average at \$19,873 before incentives. This typically translates to about \$2.50 per watt of installed capacity (more on price per watt below). Your actual cost depends on your home's energy needs, roof characteristics, location and other factors, all of which we'll break down in. Solar panel costs range from \$16,600 to \$20,500 for the average 6. To find the most up-to-date solar panel costs in 2025, we compared research from the U. Department of. Converting your home to renewable energy by installing a rooftop solar panel array is a major financial commitment for most homeowners. Anything you can do to lower the cost goes a long way to making it easier to take the leap and start paying your utility company less money each month. But how do. Local pickup saves significantly: Choosing retailers with local pickup options can save \$50-\$200 per order while eliminating the 20% shipping damage risk that affects freight deliveries of solar panels.
