

Honiara electricity safety

Overview

As part of your hurricane preparedness, be sure to manage your utilities. Plan ahead for power outages, water service interruptions or communications failures. This information covers safety measures to follow before, during and after a disaster or power outage: When lines from a utility pole fall to the ground, touch a guardrail or land on a car, please remember: . Whether it's a hurricane, tsunami, or any other natural disaster, any lead time of notice for an impending weather occurrence is critical. As part of your hurricane. With the approach of Tropical Storm Ana to Hawai'i, the Hawaiian Electric Companies want to remind customers that electricity can be dangerous and electrical safety should never be taken for granted, especially during an emergency situation. Hawaiian Electric, Maui Electric, and Hawai'i Electric. Have electrical work performed by licensed professionals. Failure to do so may lead to overloading of the circuit. Discard any item with damaged/frayed wiring. The vandalism incident took place around the KGVl and Burns Creek area. Emergency situations usually occur suddenly due to various factors such as unfavorable weather.
