

# How is Huaguo Technology's photovoltaic bracket

## Overview

---

As an important part of the photovoltaic power station, the photovoltaic support bracket carries the main power generation body of the power station, which is known as the Cornerstone system of the photovoltaic power station. The invention discloses a photovoltaic bracket assembly, which comprises a base, wherein supporting plates are arranged on two sides of the base, rotating seats are arranged at the tops of the supporting plates on two sides, threaded holes are formed in two sides of the rotating seats, locking. Solar brackets, also known as photovoltaic brackets, are structural systems used to fix solar panels. The general materials include aluminum alloy, carbon steel, and stainless steel. Get a free quote! Contact us today! Send E-mail: [sale@gneegi.com](mailto:sale@gneegi.com) Tel: +86 15824687445 Photovoltaic brackets, also called. Meta Description: Discover why 68% of global solar installations now use Chinese-made solar brackets. The selection of support directly affects the operation safety, damage.
