

How many energy storage power stations are there in Maldives

Overview

The Government of Maldives has signed an agreement to install 38 megawatt-hours (MWh) of battery energy storage systems (BESS) across 18 residential islands, as part of its ongoing efforts to transition to renewable energy. The initiative, backed by the Asian Development Bank, is considering to prepare an appraisal mission in May 2024 for the proposed additional financing. The project was awarded to a joint venture between China National Technical Import and Export Corporation.
