This is the Energy Report Card (ERC) for 2023 for Jamaica. The ERC also includes sectoral data and information on policies and regulations; workforce; training and capacity building; and related areas. The data and information that are available in the ERC were mostly provided by the government. The Jamaica Photovoltaic Energy Storage Power Station stands as a landmark project in the Caribbean, combining solar power generation with advanced battery storage. It represents all the energy required to supply end users in the country. The country's electricity cost can reach as high as \$0.
