

# How many volts is the outdoor power supply in the Middle East

## Overview

---

In the Middle East, the standard voltage is 220 volts, 240-volt appliances will work safely with this supply. The frequency is 50Hz (depending on location). Below is a full overview of all countries of the world and their respective plugs/outlets and voltages/frequencies used for domestic appliances. The table shows that in most countries the mains supply is between 220 and 240 volts (50 or 60 Hz); countries that operate on 100-127 volts are greatly. Mains electricity varies in voltage and AC frequency across the world.
