

# How much does a Lome solar inverter cost

## Overview

---

24 per watt on a solar inverter, not including labor costs. Most solar panel contractors charge around \$50 to \$100 per hour. Premium Technology Justifies Higher Costs: While SolarEdge systems cost 20-35% more than basic string inverters (\$5,500-\$9,000 vs \$3,000-\$5,000 for residential installations), the module-level optimization delivers 15-25% higher energy production, typically paying for the premium within 2-3 years. A solar inverter costs \$1,500 to \$3,000 total on average for a medium-sized solar-panel system installation. String inverter systems cost less up front, but systems using microinverters last. The size of your solar system (measured in kilowatts, or kW) directly impacts the size—and, therefore, the cost—of your inverter. You may save \$1,000 to \$2,500 up-front by. However, you can also get an inverter prepackaged together with a charge controller, battery and other components by buying a solar generator. Inverter costs usually range from \$1,000 to \$3,000, depending on your solar energy system's total power capacity.
