

# How to deal with snow on photovoltaic panels

## Overview

---

A thick blanket of snow can stop your home's solar energy production completely. I talked to several experts to get their insights into this process. Do I need to remove snow from my solar panels?

And if so, what's the easiest way to do it?

The short answer: In most cases, you don't need to do anything at all. That's why homeowners frequently ask how to keep snow off of solar panels to maintain consistent performance. While the efficiency of solar panels drops in winter, proper snow removal techniques can help keep this loss to a minimum. That being said, handling panels carefully during maintenance is crucial to avoid voiding warranties or insurance coverage.
