Overview

Once the mod is installed, you will have a spell at the top of your alteration spell list called "Storage Management". While using the concentration spell, any eligible container you activate will bring up a menu. It is highly integrated with the most popular life support mods, DMagic Orbital Science, and Kerbal Inventory System. [uk/uvsii Universal Storage II](https://www.space-dock.com/forums/threads/uk/uvsii-universal-storage-ii). Thanks for hosting your mod on SpaceDock! Universal Storage is set of parts to help you build service modules for your craft. This involved researching storage techniques for each resource, using space program examples where possible, then calculating what each Universal Storage part could contain based on the model's volume. I also have the first US2 fairings. But they are useless without the core.
